

SPORTS RYDER BRAKE PADS

EURO

Pedders SportsRyder EURO Kevlar Ceramic brake pads are formulated for the spirited performance standards and design aesthetics that are unique to European makes. Most European drivers seek a driving experience using vehicle-handling techniques that are focused on braking. This driving style is unforgiving on brakes pads making quality critical. Pedders SportsRyder Euro brake pads successfully addresses performance specific requirements of European makes, providing vehicle control and response as the manufacturer intended.

SPORTSRYDER EURO KEVLAR CERAMIC BRAKE PADS

Specifically engineered to hold a high coefficient of friction under extreme usage.

Positive moulded and hot pressed at over 6,000 psi ensuring consistent friction density.

Low noise, consistent performance, longer lasting and rotor friendly.

True Kevlar ceramic formula that keeps wheels cleaner.

Shimtech dual rubber backed shims offering 6 times more noise reduction as compared to steel shims.

Thermal scorched for fast break-in.

Approved ECE R90 regulation.

Kevlar-enhanced to prevent high temperature glazing resulting in brake fade.
