

TRAK **RYDER** **BRAKE PADS**

Pedders TrakRyder Kevlar Ceramic 4WD and SUV Brake Kits offer superior stopping power that is demanded by those that tow, as well as the off-road enthusiast. Any time you add weight to a vehicle by towing a load, or simply adding a load, you change the operating conditions of your stock brake package. These operating conditions may exceed the ability of the stock braking components – solution Pedders TrakRyder Kevlar Ceramic Brake Pads. A range of high performance 4WD and SUV pads available from your local Pedders outlet.

TRAKRYDER KEVLAR CERAMIC BRAKE PADS

Specifically engineered to hold a high coefficient of friction under extreme usage.

Positive moulded and hot pressed at over 6,000 psi ensuring consistent friction density.

Low noise, consistent performance, longer lasting and rotor friendly.

True Kevlar ceramic formula that keeps wheels cleaner.

Shimtech dual rubber backed shims offering 6 times more noise reduction as compared to steel shims.

Thermal scorched for fast break-in.

Approved ECE R90 regulation.

Kevlar-enhanced to prevent high temperature glazing resulting in brake fade.
