

# TRAKRYDER

Pedders TrakRyder EziFit Spring and Shock Kits are now an ideal alternative to buying separate components when converting your vehicle from original equipment suspension to a more high performance suspension setup.

Reduced installation time is the key benefit from the use of the TrakRyder EziFit as the spring, shock and shock mount is all supplied pre-assembled. No need to use the spring compressor as the work is already done for you! Just unbolt the old and bolt in the new.

## TrakRyder EziFit - Plug & Play Suspension

Supplied as a matched set of pre-assembled suspension components.

Includes Pedders TrakRyder Foam Cell Shock Absorber, Pedders TrakRyder Heavy Duty Spring and Pedders TrakRyder Strut Mount, Bumpstop & Boot.

Ready for direct fitment, no spring compressor needed.

Foam cell virtually eliminates shock fade by allowing full oil contact with both the inner and outer housings.

Extra large 40mm bore and piston is much greater than original equipment size and provides an even larger increased oil capacity for greater ride improvement.

Heavy Duty twin-tube construction technology.

Heavy duty reinforced double welded mountings for long term durability.
